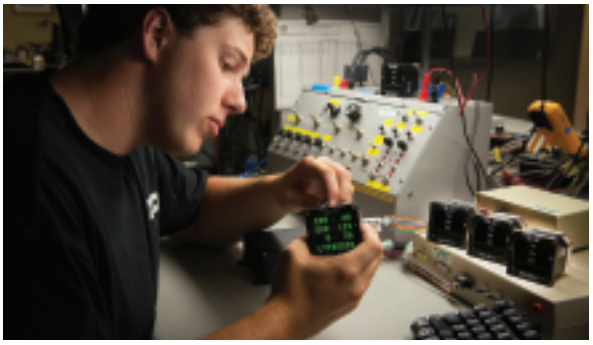
LIQUID MEASUREMENT SYSTEMS, LLC

CAPABILITY STATEMENT



Liquid Measurement Systems, Inc (LMS) is an agile and responsive company with a highly experienced staff committed to quality products and customer service. LMS' signal conditioners, indicators and fuel probes have an outstanding safety record, unmatched reliability and performance that meet or exceed all requirements.

Since 1991 LMS has designed and produced the ***lightest, safest, and most accurate fuel systems at the best value in the industry.*** We are recognized as proven fuel systems experts for a wide array of rotary and fixed winged aircraft serving both military and commercial markets.

CORE COMPETENCIES

- Fuel Gauging
- Fuel Probes
- Signal Conditioners
- Fuel Indicators
- Project Management
- Fuel Management
- Low/High Level Sensors
- Fuel Temperature
- System Integration
- Potable Water Sensor

HIGH PERFORMANCE

- 100% on time delivery
- 12,600 probes delivered 0 reported field failures.

CURRENT PROGRAMS

CH-47F, MH-6, AH-64E, AH-1Z, UH-1Y, S-61, S-97 Dash-8, S-92, Twin Otter, 737

DIFFERENTIATORS

- Half the weight of comparable systems
- Full height density compensation
- Reduced number of parts in fuel tanks
- Digital or Analog Inputs and Outputs
- Designed not to penetrate fuel bladders in a hard landing
- Customer Oriented
- 35% Engineering (EE, ME, & Software)
- Lean Processes

QUALIFICATIONS

- AS9100C and ISO9001:2008
- DO-160G Compliant
- DO-178C Compliant
- ITAR, International Traffic in Arms Regulation, registered with the State Department
- EAR, Export Administration Regulations, registered with the US Chamber of Commerce
- Small Business
