

ABOUT LMS

Liquid Measurement Systems engineers and manufactures fuel system solutions for military and commercial aircraft, featuring lightweight, strong, non-corrosive graphite composite probes, multi-functional signal conditioners, and flight deck and refuel panel indicators. We develop fuel gauging solutions for platforms at the leading edge of aerospace, and we deliver hardware for some of the industry's most iconic aircraft -- where safety, reliability and accuracy are paramount.

LMS' Blackhawk Pilot Adam Truso Deploys

LMS employees gathered together in early June to give their heartfelt support and best wishes to one of our own -- Vermont Army National Guard Chief Warrant Officer and Blackhawk helicopter pilot Adam Truso, along with his family -- in preparation for Adam's year-long deployment with the Vermont National Guard's Charlie Company to the Middle East or Southwest Asia.

Charlie Company is an air ambulance company and flies medical evacuations.

In civilian life, Adam covers Sales & Marketing for LMS. We look forward to welcoming him back from his deployment next June, and staying connected while he's gone. LMS is proud to support Adam, and the Employer Support of the Guard and Reserve (ESGR) Program.

UPCOMING EVENTS

Visit LMS at Booth 2152
July 15-22, 2018

16-22 July: Farnborough International Airshow

24-27 August: NGAUS General
Conference & Exhibition

NEW HIRES

LMS welcomes John to
the Engineering team as an
Electrical Engineer

John Burleson II

LMS welcomes Nick to
the QA team as a QA Tech II

Nick Fortin

LMS Sees Busy Quarter

As Q2 2018 draws to a close, LMS is experiencing a period of strong interest in new fuel gauging solutions that offer opportunities with strategic value as well as long-term growth. The demand runs the gamut from military to commercial applications, rotary to fixed wing, auxiliary systems to unmanned systems.

Industry forecasts point to growth in the demand for passenger travel, aging fleets, heightened global security threats and defense spending growth, plus other factors affecting our markets. Meanwhile, LMS is expanding its market presence, with rapid response and customer accessibility, along with proven technology that supports everything from new, experimental aircraft to the retrofit market for legacy platforms.

**LET'S TALK ABOUT
YOUR NEXT FUEL
GAUGING SOLUTION**

Fixed wing or rotor, manned or unmanned, military or commercial, main or auxiliary systems, LMS is a collaborative, responsive, resourceful partner with a reputation for technical superiority.
